PARTICIPATING MEMBERSHIP IN A PARISH

In order for a family to be acknowledged by the parish as a “participating member,” it is necessary that they:

- Are registered in the parish,
- Are recognized by the pastor as a family participating in the sacramental life of the parish,
- Contribute time and talent to the ministries of the parish,
- And in agreement with the pastor, they regularly contribute an appropriate portion of their annual income to the financial support of the parish.

ELEMENTARY SCHOOL TUITION POLICY

Catholic schools do not simply offer an alternative form of education, but a unique form of education. It is one that is able to address the whole of the human person: intellectually, spiritually, psychologically, and socially. Additionally, it flows from the very life of the ecclesial community. Catholic education is the responsibility of the whole body of the Church. It is the response to the command of our Lord, “Go and teach all nations.”

There exists an uneven application of the current policy regarding subsidy paid from a parish when parishioners attend a school in another parish. Many sending parishes have expressed concern regarding how the amount of subsidy requested is determined. Many receiving parishes have expressed concern that they have had to use parish resources to subsidize students from other parishes.

All parishes are responsible for providing a Catholic school education to those who desire it. Cooperation is needed to implement the following process to determine parish subsidy.

1. The pastor or his designee from each sending parish is to be invited to meet with the pastor and principal of the receiving school regarding the school finances. This meeting is to include information on both current and projected operating costs, per pupil cost, and the proposed tuition.
2. Agreement is then to be reached that is acceptable to both the sending and receiving parishes regarding per student subsidy.
3. It may be necessary to adjust the tuition proposal in order to meet the needs of both the sending and receiving parishes.
4. In the event an agreement can not be reached, the appropriate subsidy shall be calculated as follows:
 - a. first child 35% of per pupil cost;
 - b. second child 45% of per pupil cost;
 - c. third child 55% of per pupil cost;
 - d. each additional child 55% of per pupil cost.

ELEMENTARY SCHOOL TUITION RATES

In keeping with the tradition of the Catholic Church and especially from the Second Vatican Council document Declaration of Education.

“As for Catholic parents, the Council calls to mind their duty to entrust their children to Catholic schools, when and where this is possible, to support such schools to the extent of their ability, and to work along with the schools for the welfare of their children.” (8)

“This sacred Synod earnestly entreats pastors of the Church and all the faithful to spare no sacrifice in helping Catholic schools to achieve their purpose in an increasingly adequate way, and to show special concern for the needs of those who are poor in the goods of this world or who are deprived of the assistance and affection of a family or who are strangers to the gift of faith.” (9)

The Second Vatican Council encourages both parents and all the faithful to support Catholic education to the best of their abilities. The entire Church community is called forth to provide the support needed for those families that desire a Catholic education.

All billing for elementary school tuition must note:

1. cost per pupil for participating members or
2. cost per pupil for non-participating members
3. any difference between cost per pupil after subtracting “other school income” and tuition is to be listed as a grant from the parish

- d. each child non-participating 100% of per pupil cost

Realizing that school communities vary, schools not in compliance with this policy are to show progress toward meeting it.

Schools are strongly encouraged to participate in the FACTS tuition collection program.
